

Math Vocabulary

Adding Lengths • Page 1 of 2 • Words 1–3: Length • Together • Total Length

Name: _____ Date: _____ Vocab Book p. _____

LENGTH

WHAT IT MEANS:

How long an object is measured in inches with a ruler

—■ DRAW IT HERE

Draw a ruler and measure a line!

🏠 ■ A rope that is 14 inches has a _____ of 14 inches.

TOGETHER

WHAT IT MEANS:

Signal word that means ADD the lengths

—■ DRAW IT HERE

Draw two bars and an arrow showing 'together'

🏠 ■ "Both ropes together" means I should _____ the lengths.

TOTAL LENGTH

WHAT IT MEANS:

The sum when you ADD two or more lengths

—■ DRAW IT HERE

Show: rope1 + rope2 = total bar

🏠 ■ 14 inches + 7 inches = ____ inches total length.

Math Vocabulary

Adding Lengths • Page 2 of 2 • Words 4–6: Units • Bar Model • Combined

Name: _____ Date: _____ Vocab Book p. _____

UNITS

WHAT IT MEANS:

The word that tells **WHAT** you measured in (inches, feet, cm)

—■ DRAW IT HERE

Write 3 different units of length!

🏠 ■ $14 + 7 = 21$ _____. (always write the unit!)

BAR MODEL

WHAT IT MEANS:

A picture showing lengths as colored bars for comparing

—■ DRAW IT HERE

Draw a bar model for $8 \text{ in.} + 6 \text{ in.} = 14 \text{ in.}$

🏠 ■ A bar model helps me _____ lengths visually.

COMBINED

WHAT IT MEANS:

Another signal word that means **ADD** together

—■ DRAW IT HERE

Write a problem using the word 'combined'!

🏠 ■ "Combined length" means I should _____ the lengths.
